**Radal Technology – Home of the world's best  
selling tobacco and drug detection system**

**Merry Christmas and a Happy New Year!**

## Radal News - Issue 3

**Welcome to our third edition of Radal News.** Thank you once again for all your orders, enquiries and comments following our last edition - we are delighted that you enjoyed our news and updates.

As the festive season approaches may we take this opportunity to wish you all a very Happy Christmas and prosperous New Year. Thank you for your custom during 2008 - we look forward to being of service in 2009!

Next year is going to be an exciting year for Radal Technology with new products planned. We look forward to bringing you exciting news of product innovations and developments in the New Year! It's very much a case of 'watch this space!'

2008 has been a great year for us so we thought we'd focus on some of our achievements from this year in this edition.

## CONTENTS

- ▢ Cig-Arrête in 2008
- ▢ [Radal Technology continue to capture U.S. Manufacturing Market](#)
- ▢ [Radal Provides Infection Control Product Package](#)
- ▢ [SpeechPOD Voice Warning Systems](#)
- ▢ [RadaGlass](#)
- ▢ [RadalAir ActiveTEK](#)
- ▢ [Cig-Arrête](#)

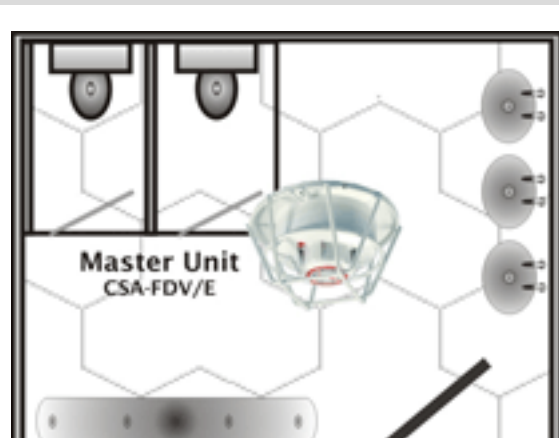

## Cig-Arrête

**As we look back on 2008, our award winning Cig-Arrête product has continued to create 100% smoke free environments for hundreds of private businesses, hospitals and schools.** In addition we have helped to control illicit smoking in external areas. New customers this year have included various sports stadiums both here in the U.K and the U.S.

Cig-Arrête is low cost and simple to install. Highly sensitive, it continually monitors the surrounding environment and within seconds of someone lighting up, the unit is activated and a voice message sounds reminding the smoker that smoking is not permitted and to extinguish their cigarette. Other options include staff alert and covert systems.

Our two top selling kits are detailed below. For more information and to view all our kits please visit: [www.radaltechnology.com/Anti-Smoking-Kits/c-1-106](http://www.radaltechnology.com/Anti-Smoking-Kits/c-1-106)

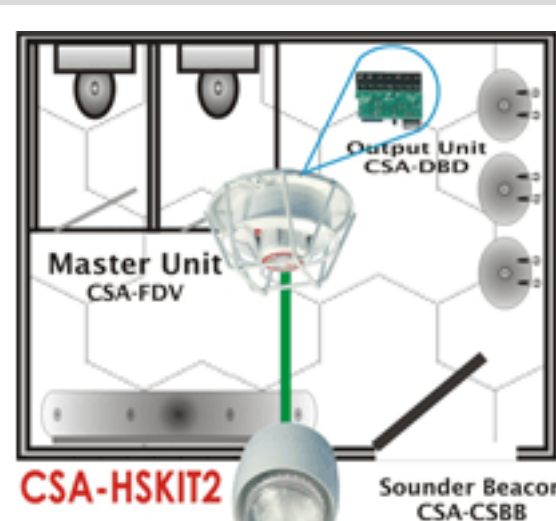

### Cig-Arrête Stand Alone Solution HSKIT1 / HGKIT 1

**CSA-HSKIT1**

- 1 x CSA-FDV/E detector complete with vandal cage
- Built-in voice message
- Battery Operated (1 x PP3)
- No installation required
- Vandal Cage avoids tampering
- Discharges responsibility under new Smoke-Free Legislation

### Cig-Arrête Staff Alert Solution CSA-HGKIT2 / HSKIT2

**CSA-HGKIT2**

- 1 x CSA FDV detector complete with vandal cage, output board and sounder beacon unit.
- Built-in clear voice warning
- Battery operated (3 x PP3)
- Simple installation using 3 core security cable
- In alarm mode, the sounder beacon operates to warn management of an alert
- Vandal cage avoids tampering
- Discharges responsibility under new Smoke-Free Legislation

### Our customers have said the following about Cig-Arrête:

*"The results were astounding. From the day the Cig-Arrête system was installed, smoking in the toilets stopped. Within a matter of days we solved a problem we had struggled for years to combat."*

**Lexie Hays, Vice Principal, Ashfield Girls School**

*"Great Ormond Street has installed Cig-Arrête as part of the implementation of its smoke-free NHS strategy... very helpful tool to our hospital."*

**Maria Collins (NHS Strategy for Great Ormond Street)**

*"It is just awesome."*

**Kim Banta, Principal, Dixie heights High School**

## Radal Technology continue to capture U.S Manufacturing Market

### JBM Envelope

Congratulations to the team for securing an order from **JBM Envelope** in Lebanon, Ohio.

The company has purchased a **Cig-Arrête** system to stop employees from smoking in the restrooms of their manufacturing facility.

### Leon Plastics

**Leon Plastics** has committed to **Radal USA** to protect their building from employees and guests who attempt to smoke in their building.

A total of four restrooms will be armed with a comprehensive Cig-Arrête System prior to the Christmas Holidays!

## Radal Provides Infection Control Product Package

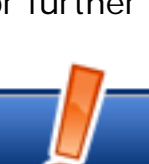

**New products introduced this year have enabled us to provide a real solution to infection control.** Many hospitals and other organisations are buying our 'Infection Control Package' – a combination of our SpeechPOD, RadaGlass and Radal Air Activ-Tek products.

**SpeechPOD** is used to provide a verbal reminder to patrons to wash their hands or use the alcohol gel provided when leaving or entering certain high risk areas. This dramatically reduces the risk of infection.

In addition, **RadaGlass** is used to create an anti-microbial covering on all surfaces – metal, wood, tile, steel, stone etc. Unlike other products, Rada Glass lasts up to 3 years after just one application!

**Radal Air ActiveTEK** products remove odours, bacteria and viruses such as MRSA, Avian Flu and E-coli from both the air and surfaces.

For further information on any of these products click the links below.

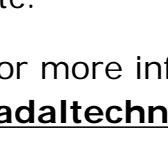

## SpeechPOD Warning Systems

**SpeechPOD Voice Warning Systems have become an integral part of good hand hygiene practice.** Whether in hospitals, schools, restaurants or offices, SpeechPOD provides a simple message of your choice to wash hands or use alcohol gels, increasing hygiene standards throughout the facility. Of course it's not always about hand hygiene; it could just as easily be risk management – slippery floors, eye protection etc.

For more information please visit: <http://www.radaltechnology.com/SpeechPOD/c-1-105/>

## RadaGlass™

**A totally green product that cuts cleaning time by 40% and creates an anti-bacterial coating for up to 3 years.**

This liquid-glass – pure nano technology product is anti-microbial. It prohibits growth on surfaces such as ceramic tile, glass & mirrors, stainless steel, concrete and stone floors and fabrics for up to three years.

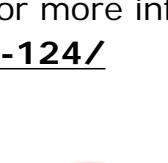

For more information please visit: <http://www.radaltechnology.com/Radaglass/c-1-126/>

## RadalAir ActiveTEK

**RadalAir™ ActiveTEK Products** purify the air and sanitize surfaces by killing bacteria (including MRSA, E-Coli, Listeria, Salmonella) and removing all odours in restrooms, care homes, offices and all public areas. These units can either be installed in air duct systems and we offer two portable models that you may move from room to room.

For more information please visit: <http://www.radaltechnology.com/Air-Purification/c-1-124/>

## Cig-Arrête

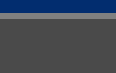

**For the past ten years, Radal Technology has helped over 10,000 schools, hospitals and businesses become smoke free with our unique Cig-Arrête Tobacco Control Systems.** Sold in over 25 countries, Cig-Arrête prevents illicit smoking in toilets, washrooms and external entrances.

For more information please visit: <http://www.radaltechnology.com/Anti-Smoking-Kits/c-1-106/>

**Merry Christmas and a Happy New Year!**

We are closed from December 24th to January 5th. To ensure orders reach you on time, our last order date is December 22nd.
