Dear Mr Dunleavy

I am writing to thank your company for the excellent work you undertook in the installation of the Cig-Arrete Tobacco Control System in pupil toilets across our campus. The way the installation was managed was excellent and we are very pleased with the product itself.

Holmfirth High School achieved the Healthy School Award in 2004. We opened a school based health and information centre for our pupils, improved school meals and much more. However, we remained embarrassed that we had not been able to impact on the problem of pupils smoking in the toilets. At this stage we invested in the installation of the Cig-Arrete Tobacco Control System. It was installed in all pupil toilets across the site and overnight it has addressed the problem. The issue has disappeared and other children who might have felt intimidated about entering the toilets are now much more comfortable about doing so.

Pupil quote:

"It is so much better now, we can go to the toilet without being surrounded by cigarette smokers".

Parent quote:

"The fitting of the cigarette smoke detectors is further evidence of Holmfirth High School's strong commitment to the healthy school ethos".

Thank you once again for your work.

Yours sincerely

Dr A Williams  
Headteacher
