

'SpeechPOD® SD Evolution' Weatherproof Voice Warning System (Part No CSA-PODW)

SpeechPOD SD Evolution incorporates a PIR motion sensor and is designed to provide voice messages in any area of a facility to warn of special risks or hazards such as slips, trips and falls, infection control procedures, hygiene requirements, security monitoring or point of sale merchandising.

Fully programmable with a simple hand held remote, SpeechPOD SD Evolution is a truly global product with the ability to play any audio file in any language without the need for complex programming knowledge.

Product Features

- SpeechPOD Weatherproof is housed in an IP65 box to prevent ingress of moisture.
- On sensing the presence of people, SpeechPOD SD Evolution will play any pre-programmed voice files in any language.
- Time delays between messages are selectable via the remote programmer to ensure that the message is broadcast at the right time.
- Up to 100 messages can be pre-programmed and selected either individually or sequentially where each message in the list is played in turn on each activation.
- The weatherproof SpeechPOD is designed to be installed in entrance areas where voice messages are required to warn of risks or policy..
- SpeechPOD SD Evolution contains a Windows® based file structure which allows simple 'drag and drop' file copying for ease of programming.
- New SmartWave® hi-resolution voice playback software produces crystal clear hi-fidelity audio files to be broadcast in any location.
- SpeechPOD SD Evolution can be powered simply by 4 x AA alkaline batteries, or connected to the mains through a 6Vdc power supply unit for high traffic areas.
