

Wodonga Senior College, Victoria, Australia

Cig-Arrête System makes a Difference....

After having some issues with smokers in our toilets I was told about these new cigarette smoke detectors from a colleague of mine at another school. After an impressive demonstration of the products from Health Tech Industries we decided that we would purchase this technology.

We installed a Radal system in March 2014, this system consists of combined flame and smoke detectors paired with an external beacons.

Since the install in March 2014 we have not had any issues with smoking in the toilets and all students feel much more comfortable using the facilities.

Health Tech are very approachable and support their product well, they provided us a solution to a health and safety issue that was a concern to both staff and students.

We would not hesitate recommending this technology to any other schools experiencing issues with smoking.

David Whitehead
Assistant Principal
Wodonga Senior College

Some Facts About Wodonga

Wodonga is Victoria's fastest growing city on the Victorian side of the border with New South Wales, 300 kilometres north-east of Melbourne, Australia. Adjacent to Wodonga across the border is the New South Wales city of Albury.

Wodonga Senior Secondary College is a public school in Wodonga, Victoria. It was formed in 2005-2006 when the three public schools in Wodonga; Wodonga High School, Wodonga West Secondary College, and Mitchell Secondary College merged and pooled resources, as part of a plan to address long-term population growth in Wodonga. The plan saw the restructure of the public schools in Wodonga, with the formation of Wodonga Middle Years College to specialise in the education of students in Years 7, 8 and 9, and Wodonga Senior Secondary College to specialise in the education of Years 10, 11 and 12. The two colleges are loosely associated.

Wodonga Senior Secondary College is based on the grounds and facilities of the former Wodonga High School. The new campus has many facilities, a new technology centre, arts wing and performing arts center.
